

AquaCam 100

AquaCam 100 is an underwater feeding and inspection camera specially developed for aquaculture, fish farming and submarine applications. The solution is based on a bullet design .

AquaCam 100 offers low light performance technology which provides greater accessibility for locations in critical regions with lack of daylight.

AquaCam 100

Product features

- Full HD 1920 x 1080 resolution @30fps
- Supports ONVIF protocol
- Excellent low-light performance 0,001 lux (B/W)
- Low weight for easy manual handling (0,4 Kg)
- Communication supported by WiFi or fibre
- Easy integration with VMS or access with Web-browser
- Watertight solution with no moving parts
- Video compression: H.265+/H.265/H.264+/H.264

Product specifications
